## GIVING LOOKS GOOD

DON THE ONYX HOPE BRACELET IN SUPPORT OF THE WILSON FOUNDATION

**08.13.2010** | Beaded bracelets are the new black, so what better piece to add to your jewelry collection than one (or two!) of these 14mm onyx stunners created by interior design guru Trisha Wilson's The Wilson Foundation and designed by Sue Gragg Precious Jewels of Dallas. Accented with a Wilson Foundation hand logo pave set in sterling silver (a diamond charm is available by special request), this accessory not only looks good, but it does good. Aptly named the Hope Bracelet (\$125), 100% of the net profit from sales will go to support healthcare and education initiatives for disadvantaged children in South Africa.
